Dear Coach,

I hope this message finds you well. I am writing to share my aspirations as I embark on my career journey after earning my National Diploma in Software Development from Tshwane University of Technology.

My short-term goal is to establish myself as a software developer in the banking sector, where I can leverage my skills to build powerful systems that enhance operational efficiency and improve user experiences. The banking industry excites me due to its pivotal role in society and the innovative technologies that drive it.

I would also like to express my gratitude for the opportunity to grow as a software tester intern at Grosa Packs. This role is invaluable to me, and I am committed to delivering high-quality results that reflect my dedication to excellence. I believe this internship will not only allow me to gain practical experience but also help me develop my skills in a collaborative environment, preparing me for future challenges in the software development field.

While I have a clear focus on the banking sector in the short term, I understand that my long-term career path is still unfolding. I am open to exploring various opportunities as I grow within the industry, whether that involves deepening my technical expertise or pursuing new areas of interest.

Thank you for considering my aspirations. I am excited about the opportunities that lie ahead and look forward to making meaningful contributions at Grosa Packs while preparing for a successful career in the banking sector.

Best regards,

Bongubuzwe Mafuya
